Hygiene (18)

14:45 minutes

Two-track audio

Summary Hygiene is a very important part of everyday life. That was not always the case. The way to today's level of hygiene was long and hard. In modern societies hygiene has become a question of aesthetics in private life. In the professional world it saves lives if strict rules on hygiene are enforced. Viruses and bacteria must not have any chance of survival.

Didactics This programme of hygiene can be used to show why hygiene is important and where it comes from. The film also deals with the hygiene conditions in third world countries and can be used in many ways.

Learning goals The students...

1. will learn, where is paid attention to hygiene.
2. will know, why hygiene is important for us humans.
3. get to know the long way to hygiene.
